

The Federal Communications Commission

Dear The Federal Communications Commission,

The Universal Service Fee is HIGH ENOUGH already for residential users like me!

I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers.

THIS IS NOT Fair!

I urge you to reject the proposal to move the USF collection system to a flat-fee.

Flat Fees are NEVER FAIR> .

Keep the USF Fair!

.

Sincerely,

James Alstrom
